Given each of its definitions, as to the  
principal difference between each of them, it  
can be said then that it is a question of  
approach, as well as its use , since while Pure  
Mathematics is dedicated mainly to procure  
one ' s own knowledge Of this discipline,  
from a certain degree of abstraction, applied  
mathematics employ this knowledge to solve  
problems of real life, as well as to convert  
into verifiable facts the different scientific  
postulates about the realities and laws of  
their ...
