"L'Erma" published Gisela M. A. Richter's Catalogue of Engraved Gems: Greek, Etruscan, and Roman in 1956, exactly fifty years ago. This book proved
to be Miss Richter's last comprehensive collections catalogue for the Metropolitan, though of course she continued to draw on the Museum's Classical
holdings in her numerous subsequent publications.

gem | British Museum

The Scot James Tassie (1735 – 1799), and his nephew William (1777 – 1860) developed methods for taking hard impressions from old gems, and also for casting new designs from carved wax in enamel, enabling a huge production of what are really imitation engraved gems. The fullest catalogue of his impressions ("Tassie gems") was published in 1791, with 15,800 items.
