Thus, active at once in aiding progress and in removing hinderance, the science of culture is essentially a reformer ' s science. I think maybe some people who throw around the phrase “ reformer ' s science ” don ' t realize just what this phrase meant to Tylor — the elimination of old, outmoded bits of archaic culture in his society and their replacement by shiny new bits of Victorian culture.

Editor of the Reformer: A belief is not a fact, nor is it an opinion. Belief is blind trust that something is true. Though essential in the context of religion, belief without evidence can be deadly in the real world. If I believe I can fly and, ignoring science, jump off a cliff, my belief will ...
