Few political associations have had as disastrous an outcome as the one forged between Adolf Hitler and Benito Mussolini. The Axis alliance in defeat ultimately destroyed its two founders and their regimes, as well as the lives of millions of people in Europe, Africa, and Asia in the process. Yet the deeper motivations that were the root cause of the alliance between Germany and Italy, with the added ingredient of Imperial Japan and the political and personal relationship between Hitler and Mussolini, are explained while many aspects remain strangely mysterious even to this day. This book offers a complete chronicle of the Axis alliance.

The first study of Mussolini as war leader. Focus is the disastrous performance of the Italian army and its consequences.

Early influences and the shaping of the personality (1894-1918) -- Entry into politics and the fight against separatism: Jung's years in the Pfalz (1918-24) -- Jung's pursuit of leadership of the Conservative Revolution (1925-31) -- With Papen in the eye of the storm: the final years (1932-34) -- Conclusion

Explores Wagner's lengthy stays in Venice, his death there, and the meaning of his works -- and his death -- for that great city and its mystique.

A riveting new account of the long-overlooked achievement of British-led forces who, against all odds, scored the first major Allied victory of the Second World War Surprisingly neglected in accounts of Allied wartime triumphs, in 1941 British and Commonwealth forces completed a stunning and important victory in East Africa against an overwhelmingly superior Italian opponent. A hastily formed British-led force, never larger than 70,000 strong, advanced along two fronts to defeat nearly 300,000 Italian and colonial troops. This compelling book draws on an array of previously unseen documents to provide both a detailed campaign history and a fresh appreciation of the first significant Allied success of the war. Andrew Stewart investigates such topics as Britain's African wartime strategy; how the fighting forces were assembled (most from British colonies, none from the U.S.); General Archibald Wavell's command abilities and his difficult relationship with Winston Churchill; the resolute Italian defense at Keren, one of the most bitterly fought battles of the entire war; the legacy of the campaign in East Africa; and much more.

In this fascinating volume, renowned historian Howard M. Sachar relates the tragedy of twentieth-century Europe

through an innovative, riveting account of the continent's political assassinations between 1918 and 1939 and beyond. By tracing the violent deaths of key public figures during an exceptionally fraught time period--the aftermath of World War I--Sachar lays bare a much larger history: the gradual moral and political demise of European civilization and its descent into World War II. In his famously arresting prose, Sachar traces the assassinations of Rosa Luxemburg, Kurt Eisner, Matthias Erzberger, and Walther Rathenau in Germany--a lethal chain reaction that contributed to the Weimar Republic's eventual collapse and Hitler's rise to power. Sachar's exploration of political fragility in Italy, Austria, the successor states of Eastern Europe, and France completes a mordant yet intriguing exposure of the Old World's lethal vulnerability. The final chapter, which chronicles the deaths of Stefan and Lotte Zweig, serves as a thought-provoking metaphor for the assassination of the Old World itself.

This book is a study of British official attitudes towards the Danubian countries (Hungary, Czechoslovakia, Romania and Yugoslavia) from Hitler ' s rise to power in 1933 to the year 1941, a period that marked serious but fruitless British political and economic efforts to unite this unruly part of Europe against Nazi ascendancy. Set against an international backdrop of regional revanchist, revisionist and irredentist tendencies, particularly in Hungary and Bulgaria, the book explores how these movements affected international relations in the region as they aimed to overturn the territorial order set down in Versailles following the Great War to restore the status quo of a more glorious national past. Offering fresh insights into the British-East Central and South East European relationship, the book charts the shifts in British official policy towards Danubian

Europe, amidst competing regional nationalisms and the sudden and abrupt shifts in British global priorities during the early part of World War II.

The link between Hitler's Third Reich and European royalty has gone largely unexplored due to the secrecy surrounding royal families. Jonathan Petropoulos uses unprecedented access to royal archives to tell the fascinating story of the Princes of Hesse and the important role they played in the Nazi regime.

From Filipino guerilla leader Emilio Aguinaldo to British naval officer James Lucas Yeo, 223 entries offer biographical information on people who have taken up arms against the United States government.

The first full-length treatment of Mussolini's campaign against Yugoslavia reveals a brief but tragic chapter in Balkan history replete with ethnic cleansing and atrocities that set the stage for the violence in the 1990s.
