102, was
distributed
randomly by
course

instructor.

~~Microbiology~~

~~Unknown Report +~~

~~Proteus vulgaris~~

~~+ BLS ACLS ...~~

Therefore

Proteus vulgaris

was indeed one

of the unknown

Read Free

Proteus

Vulgaris. During the lab exercise the only problem encountered was the process in isolating the bacteria mixture.

However, after performing the EMB and MAC test the culture was pure and further testing could

Read Free

Proteus

Vulgaris

occur.

Additional
testing resulted
in proper

identification
of the unknown
bacteria.

~~Vulgaris~~
performed was a
Simmons Citrate,
and after
~~Unknown Lab~~
Report
observation a
negative result
was concluded.

~~How to Write a
Microbiology
Unknown Lab
Report~~

The lab
instructor gave
out an unknown

Read Free

Proteus

labeled 124,
which contained
a gram positive
bacterium and a
gram negative
bacterium. The
techniques that
were studied in
the laboratory
were applied to
find the
unknown.

Throughout the
study the course

Read Free
