The Schwinn Air Driver 700 4-in-1 bicycle pump uses an internal switch valve to automatically shift between needle-valve and bike-valve modes.

### Schwinn 4-in-1 Bicycle Pump Instructions | Livestrong.com

Put the pump in the "unlocked" position. To do this, you will need to flip the lever found on the side of the Schwinn bicycle pump down so that it is touching the pump. Place the head of the Schwinn bicycle pump around the valve found on the tire. Push the head into the valve gently so that it fits snug around the entire head of the valve.

2.0 out of 5 stars Instructions for Schwinn Airdriver 1100. Reviewed in the United States on February 15, 2009. Yes, the reviews are correct. This is the most counter-intuitive pump I have ever used. That being said, the major flaw is only that it does not come with good instructions. Actually the 3 step instructions are a joke. Once you know ...

### **Instructions for Schwinn Airdriver 1100**

Push the Schrader nozzle of the pump onto the Schrader valve. Push hard to get the middle pin on the tube's valve pushed down to allow air flow into the tube. Flip the Air Driver lock switch found on the top of the dual sided nozzle up to lock the pump nozzle onto the inner tube valve.

3. Pump like a champ, you may have to push really hard at first to get the tire valve to open. 4. The pressure meter is almost useless except in presta tire mode, so I wouldn't pay much attention to it. Presta mode: 1. Make sure the pump is in "tire mode" (see theory section above) 2. Take off plastic caps off presta valves on bike tire 3.
